वेरुवत नइरुं

NUSRL has been established by an Act of the State Legislature prompted by the vision of the constitutional forefathers that the law, legal system, and legal institutions have an overarching role for human, social, political, and economic development of the nation. India in the 21st century and beyond having a rich heritage of legal culture, thoughts and traditions needs to tread the path where the law has to act as catalyst in achieving the goals enshrined in the Constitution as well as see India amid one in the galaxy of developed nation.

For achieving these goals enshrined in the Constitution and law being an instrument in achieving these goals needs a new perspective for its understanding, dissemination and structural innovations. Therefore, for the last two decades a new awakening of the thrust has been given to the study of law and its constitution by establishing National Law Universities. NUSRL obviously has been crafted to develop new and progressive orientation towards the legal studies, its institutions, and its relationship with other sciences.
